

Blackbone Silver

Material The Blackbone Silver collection is made from new, black-stained oak of which the parts are placed in the chic herringbone pattern. The tight metal frames are silver plated.

Possibilities This new collection consists of an extendable dining table (180 / 255cm long) with intermediate shelf, a wall table, 2 different coffee tables (rectangular and square), a side table, a TV dresser, a sofa table and 2 wall cabinets.

The complete collection is also available with gold colored frames; the Blackbone Gold collection.

Maintenance In order to keep your furniture looking at its best it is important to maintain your Blackbone Silver furniture properly, as you would do with other items that you cherish.

Remove stains immediately; do NOT rub the spill but dab it with a paper towel or an absorbing cloth. Do NOT use or apply any furniture maintenance products containing silicone or solvents like: stain removers, turpentine or white-spirit.

Stains can be removed with water and mild natural soap if necessary. Be careful with cleaning products containing bleach additives (lemon for example). Abrasive cleaning products shouldn't be used at all. The frame can be best wiped with a soft and if needed damp cloth.

Never use abrasive sponges and detergents with abrasives because these can leave scratches in the polished top layer.

This way you will keep your furniture looking at its best and it will last for ever.

Delivery time The delivery time of the Blackbone Silver collection is 4 weeks.
