

# Conrad

**Material** The Conrad collection is a collection with so-called “faux” marble on gold-plated stainless-steel bases. The faux marble is indistinguishable from real and is not as fragile and heavy as real marble.

**Maintenance** It is sufficient to wipe the furniture with a slightly damp cloth.

Do not use abrasive cleaners under any circumstances as they can leave scratches in both the “faux” marble layer and the frame.

The use of coasters is recommended to avoid scratches.

In this way you keep your furniture beautiful and enjoy it for a long time.
