

Orion

Material The table tops of the Orion collection are made of real emperador marble with black powder-coated frames.

Marble is a product of nature; please note that patterns in the marble may differ from the image.

Maintenance It is important to maintain your Orion furniture in order to keep it looking beautiful, as you would with other cherished items.

Remove stains or spilled liquids immediately; do NOT rub the spill, dab it with a paper towel or an absorbing cloth.

Do NOT use or apply any furniture maintenance products containing silicone or solvents like; stain removers, turpentine or white-spirit.

Stains can be removed with water and mild natural soap if necessary.

Be careful with cleaning products containing bleach additives (Lemon for example).

Abrasive cleaning products shouldn't be used at all.

IMPORTANT: marble is a porous stone type; you can best protect this from stains with a thin layer of wax. This wax can also be ordered.

Furthermore, we strongly recommend using coasters.

The frame and top can be best wiped with a slightly damp (non-abrasive) cloth.

This way you will keep your furniture looking beautiful and it will last for ever.
