

Tulum

Material Beautiful, striped patterns in the tabletops characterize the Tulum collection. The aluminum cast tops are finished in a warm, brushed brass color and combined with sleek, black powder-coated bases. Together the materials and colors give this collection a light look.

Maintenance To keep your Tulum furniture looking beautiful, it is important to maintain it the right way, as you would with other cherished items.

Maintenance does not require much more than one (slightly damp) cloth to wipe the furniture with

However, keep the following advice in mind:

Remove stains immediately; DO NOT rub spilled liquids, but dab them with paper towel or absorbent cloth. DO NOT use silicone-containing furniture care products or a solvent such as stain removers, turpentine, benzene, thinner or similar resources. Also cleaning products with abrasives and bleaching additives (e.g. lemon) are strongly discouraged.

Stains can best be removed with some water and a mild natural soap if necessary.

Under no circumstances should you use scouring pads and cleaning products containing abrasives as they can leave scratches.

The above maintenance recommendations guarantee a long life for your valuable Tulum furniture.
