

BLOOMSTONE

The Bloomstone collection embodies modern, minimalist, and organic elegance with its use of a light-colored eco plaster finish. The smooth and matte coating, combined with the white color, creates a fresh appearance that fits perfectly in an elegant and serene interior.

The Bloomstone collection offers a modern, minimalist, and aesthetic look. This collection utilizes high-quality MDF with a light-colored eco plaster finish, creating a unique texture and a contemporary atmosphere.

The MDF in the Bloomstone collection is treated in a special way to give it the appearance of being plastered. This results in a smooth surface with a matte coating. The combination of the sleek finished organic forms and the white color gives the furniture a modern look that complements a minimalist aesthetic interior.

Maintenance

To maintain the beautiful appearance of the Bloomstone furniture, it is important to take good care of them. Use coasters to prevent scratches and stains. Regularly clean the furniture with a damp cloth and mild cleaning agents. Note that this may affect the coating, so be careful with aggressive cleaning agents. If any liquid is spilled, remove it immediately and do not let moisture sit on the surface for too long. The special eco plaster finish on the MDF requires careful maintenance and gives the furniture a unique look.

With careful maintenance, you can enjoy the unique Bloomstone collection for a long time.
